3.4 Which activities best supported your learning in this course?	10
3.5 Feel free to leave us any additional comments, concerns, or questions.	11

1 Likert Ratings

There have been 198 responses given by Cleveland Metropolitan School District, OH participants, they largely gave positive feedback when asked questions about a variety of ways to assess the effectiveness of the facilitation of their courses.

Participant Perceptions of Course

1.1 Percent Agree and Strongly Agree

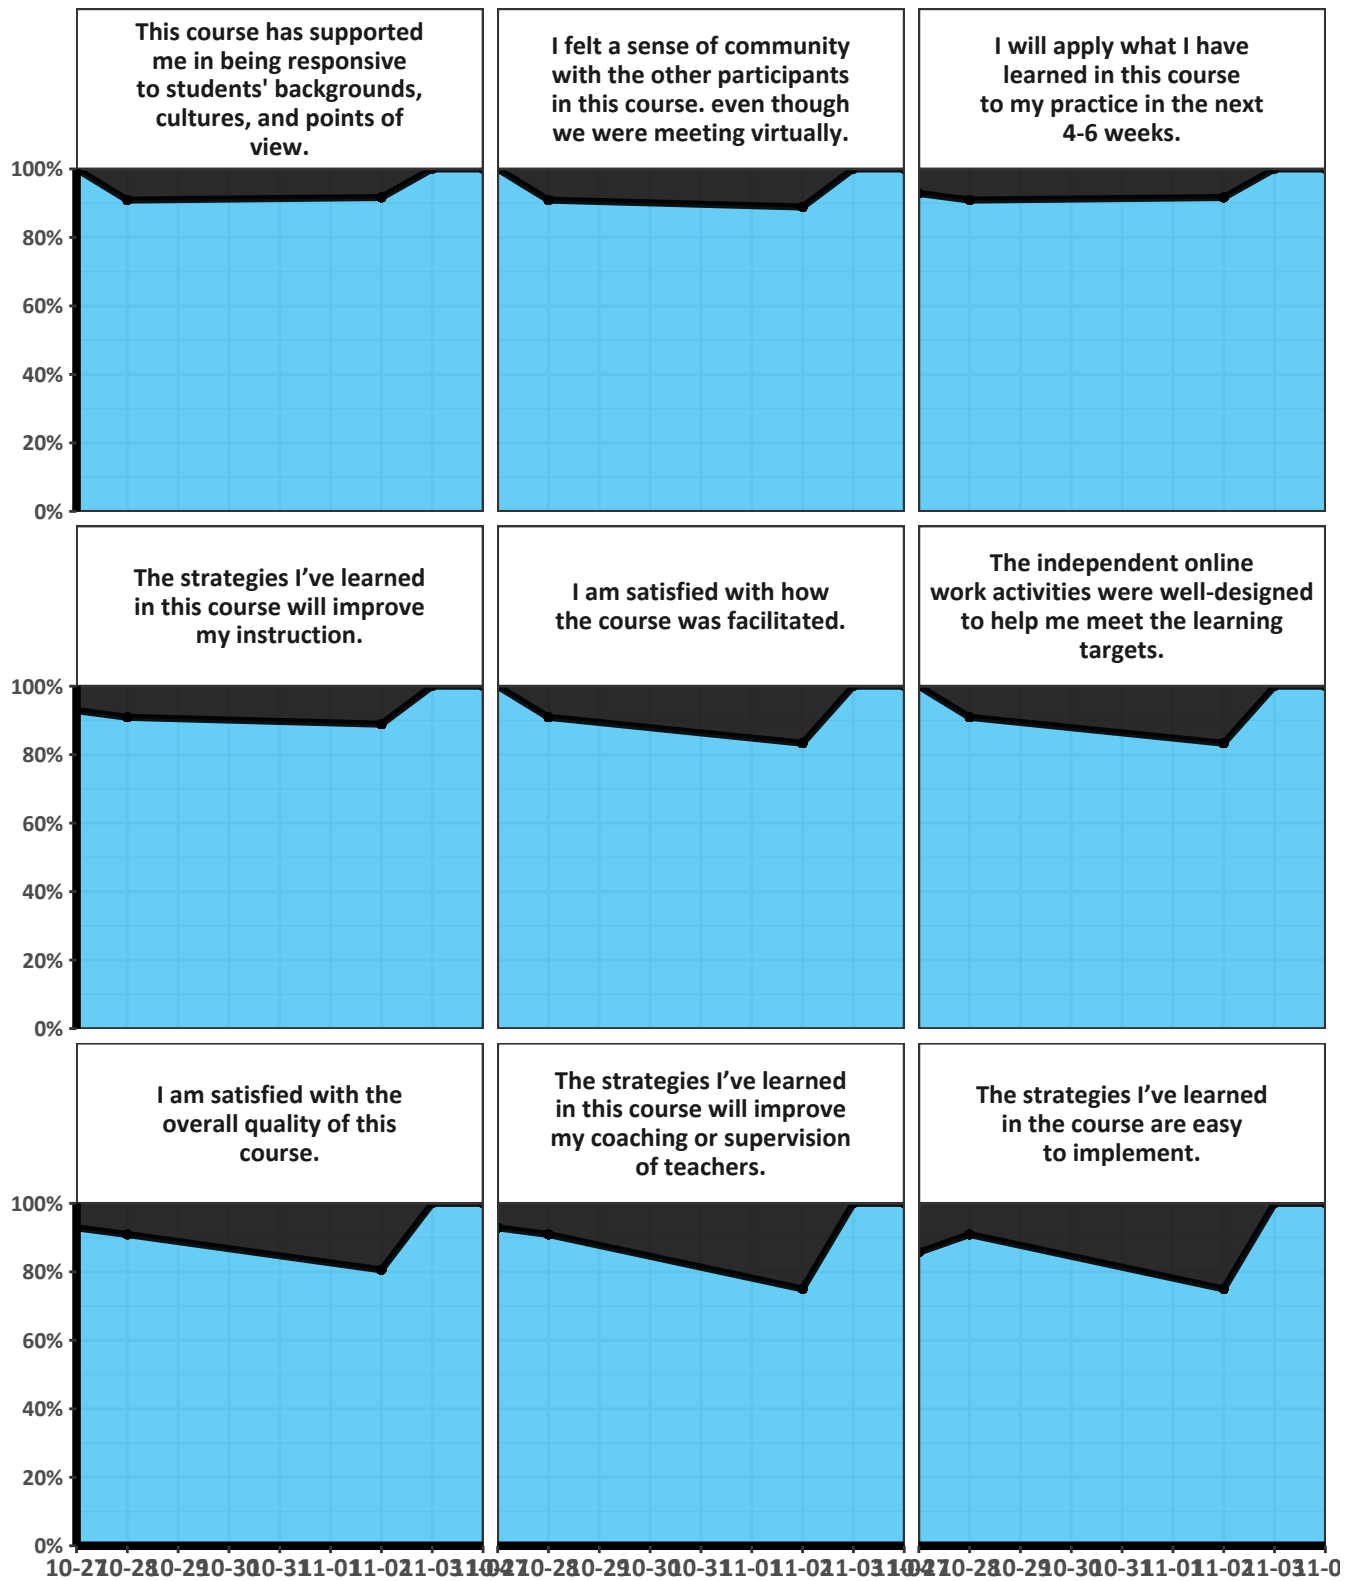

In summary, we see the following % agree or strongly agree with the above statements:

- 94% strongly agree or agree that the course has supported me in being responsive to students' backgrounds, cultures, and points of view.
- 90% strongly agree or agree that they've learned in this course will improve my instruction.
- 83% strongly agree or agree that they facilitated the content clearly.
- 81% strongly agree or agree that the strategies I've learned in the course are easy to implement.
- 89% strongly agree or agree that the independent online work activities were well-designed to help me meet learning targets.
- 92% strongly agree or agree that they will apply what they have learned in the course to their practice in the next 4-6 weeks.
- 92% strongly agree or agree that they felt a sense of community with the other participants in the course even though they were meeting virtually.
- 86% strongly agree or agree that they responded to the group's needs.
- 89% strongly agree or agree that they were satisfied with how the course was facilitated.

2 Over Time

In this section responses are illustrated on a daily basis, in this case all reviews were submitted on the same day.

Percent that Agree/Strongly Agree

■ Agree/Strongly Agree
 ■ Neither Agree nor Disagree/Disagree/Strongly Disagree

3 Qualitative Participant Feedback

Finally responses to the following questions are presented below:

- What could have been better about today's session?
- What went well in today's session?
- What additional feedback do you have about their facilitation skills?

3.1 Overall, what went well in the course?

Overall, what went well in the course?
It's making the curriculum more user friendly and supporting the strategies with data.
rich discussion of curriculum
the presentation
I learned good information but do not have the books
Visual the videos to help build my background knowledge in EL
hearing from other teachers
The break out rooms
The course facilitators were both very personable, friendly and knowledgeable. They kept us engaged and always allowed us to share our ideas.
I like collaborating with colleagues
Collaboration and Engagement

3.2 Overall, what could have been better in this course?

Overall, what could have been better in this course?
More detailed about the lessons themselves.
More time to talk and share
more time to read article
Maybe even more info about how to use every part of the curriculum - there is a lot involved in getting through the curriculum .
What an EL module looks like from beginning to end. How to get 3 hours of EL in a day with other teaching commitments.
Completing this same survey for every class didn't make sense. There needs to be a different survey or a single survey at the end.
More specific examples.
More time diving into the actual curriculum
Dig deeper into Eureka
more examples of how to implement the lessons

3.3 What is the learning from this course that you are most excited about trying out?

What is the learning from this course that you are most excited about trying out?
Just getting a better understanding of Eureka
teaching strategies
Continuing to learn the program and use the manipulatives needed to move through the lessons.
Encouraging more student discussion!
Implementing the strategies
I am not sure because I am still confused on a lot of the EL curriculum.
the planning of resources
RTTW
sprints
RTTW

3.4 Which activities best supported your learning in this course?

What is the learning from this course that you are most excited about trying out?
small groups
Course 5
Some of the videos
Teacher interactions and perspectives when in the breakout rooms
Understanding the effective practices within the lessons
Explanations from teacher
The web sites presented, feedback from colleagues, and modeling are activities which I know that will be utilized as I plan.
The videos , talking about, using jam boards.
Learnzillion
they were all very good

3.5 Feel free to leave us any additional comments, concerns, or questions.

What is the learning from this course that you are most excited about trying out?
Thank you such much ladies! Thoroughly enjoyable class !
I feel like this was a good overall view of EL but I really need a deeper dive into lessons and what it looks like in a class room, how to plan for it etc.
Again, the platform is not easy to use and the content of this course has little to do with teaching Eureka math.
Again, the platform is not easy to use and the content of this course has little to do with teaching Eureka math.
Loved it, loved it
Thank you such much ladies! Thoroughly enjoyable class !
Sessions were clearly planned and the facilitators were engaging and asked complex questions for us to think about and apply to our teaching .
The facilitators were fantastic, very engaging and supportive!
Do you have any videos that would show what a whole lesson would look like? Same with the Skills block?
I had the best time during this bootcamp and I learned so much
