- What went well in today's session?
- What additional feedback do you have about their facilitation skills?

3.1 Overall, what went well in the course?

Overall, what went well in the course?
The content was very useful
Dialogue with peers
presenters were good
Dialogue
The facilitators were amazing and very engaging and well prepared.
The breakout rooms and the park we got down with other teachers of the same subjects / or high school and their helps in how we got though certain issues
The interactions with the other grade level teachers , just talking out concerns, strategies and a game plan.king
Sharing ideas with other teachers .
Being able to engage and explain the learning targets through the lesson.
I really enjoyed the opportunity to practice routines together as a whole group and having discussions in small groups to reflect on what we'd done or read.
The facilitator created a positive, supportive environment in which to learn. The information was relevant and useful.
The open discussion
Our breakout rooms are super helpful! Great conversations around instruction.
learning about fluency

3.2 Overall, what could have been better in this course?

Overall, what could have been better in this course?
Nothing!
I feel in person collaboration would be helpful to me.
The first hour was somewhat slow with trying to get started. Some of the content at the beginning was duplicate of prior learning.
I was under the impression that our independent work/homework would be used in discussion openings. I did not find that we used our speech. I may have misunderstood though.
More collaboration and further PD on how to extend the work
Length of time in Breakout rooms
Not sure.
ran out of time in discussions
more how to with the guidebooks..seems likes lots of materials to figure out but I will assume district will help with that training
I enjoyed this course
More time to develop lessons
Thought it was great overall
Office hours are often offered at challenging times (i.e.- Friday evenings, etc.). The timing of this course in our SU was also not well planned and thus not well received. In the future, a spring course in preparation of fall instructional changes would give staff more time to wrap their head around curricular changes.
I wish it was closer to the school year so that we can use what we learned in the classroom right away.

Great job. Very thoughtful facilitation.
The second day had much better flow and the delivery was improved.
