2   Qualitative Participant Feedback

Finally responses to the following questions are presented below:

- What could have been better about today's session?
- What went well in today's session?
- What additional feedback do you have about their facilitation skills?

2.1   Overall, what went well in the course?

Overall, what went well in the course?
I appreciated having the time to unpack the new program with my colleagues.
everything
The breakout rooms where we collaborated with colleagues went well.
discussing with colleagues
I appreciate seeing lesson through eyes of children.
the overarching goal
Course leader was very informative.
The engagement and collaboration
Emily had good pacing and it was easy to stay focused.
The collaboration was always helpful.

2.2 Overall, what could have been better in this course?

Overall, what could have been better in this course?
some teachers were grumpy about changing curriculums
Timing, not their issues but still dealing with subbing crisis as a nation and time to meet is hard.
more time
more time
Spread the sessions (Monthly)
I feel like I don't learn well on zoom
I felt that there was a lot of pre work that we needed to do, that we may not all have had time to complete.
I think the race consciouness lessons felt tacked on to the end of the math content. It doesn't feel well connected to the content of the majority of the PD.
in-person vs. online environment
In person, not right before a break. This was a hard year for us to do it since we have so many other things to do this year.

2.3 What is the learning from this course that you are most excited about trying out?

What is the learning from this course that you are most excited about trying out?

Engaging students in meaningful talk.

I am looking forward to incorporating all of our **learning** in different formats throughout my work with our district.

inquiry cycle and eliciting student thinking materials with teachers

Finding the dilemmas and **learning** to cope with teaching around them.

More IM **curriculum**

I am excited to work with the IM and use the different parts that are built in to support all my students.

the actual IM math **curriculum**

I have been using these lessons. Now I have a better sense of the format that they should happen in.

Improving Questioning techniques and helping teachers elicit and use student thinking.

learning the protocols

2.4 Which activities best supported your learning in this course?

What is the learning from this course that you are most excited about trying out?
reading./thinking/**talking** about what is supposed to happen in a given instructional routine.
small group work
The pre-work and **breakout** rooms
Talking with each other as a whole group
The dialogue with other educators.
reengagement lessons
Scattergories ;)
Most, but liked listening and then observing and making thei nformation come to life.
Th collegial discourse overall
Breakout rooms, **talking** with **colleagues**.

2.5   Feel free to leave us any additional comments, concerns, or questions.

What is the learning from this course that you are most excited about trying out?
Can we please have these sessions once a week moving forward? Twice a week with a potential of async in between is hard to manage. November was exhausting.
thanks
great work!
Thanks!
Maybe find a way where we can participate with the activities fully without having to do so much pre-work. Other than that, it was a great learning course.
Well done, need to have a Spanish version.
Thank you for all the hard work that goes into doing a session like this
this was an excellent learning opportunity. Thank you!
In all honesty, it was very hard to do/prepare the activities before the meetings; we are very pressed for time at our school site.
Thank you for your support
